The diagram illustrates the correct method for attaching a slat (D) to the bed frame. A hand is shown pointing to the correct placement of the slat, which is indicated by a checkmark. The incorrect placement, shown with a large 'X', is where the slat is not properly aligned with the frame's support structure. The diagram also shows a detail of a bolt being tightened, with a callout indicating that three bolts (3x) are required for each slat. The labels A, B, D, and F identify the various components of the bed frame.
