# Leather Swatch Guide

We offer a range of rich leather colors, types and styles that are closely reviewed for consistency and shade alteration against an approved quality standard. Our new qualities of leather each have their own characteristics. Signature leather features a smooth, uniform surface, subtle highlights and lowlights, and a gentle matte finish. Legacy leather is distressed with a slight sheen, has natural tones highlighted by wax layers and features a glossy finish. Burnished leather has high-low color variations, edges burnished by hand and an aged appearance. Our vintage leather has an oily, soft and subtle texture, broken-in appearance and vintage-inspired patina.
