Adjusting Levelers:
Due to an uneven floor the furniture may not sit level due causing it to wobbles. If the piece wobbles, determine which corner does not touch the ground correctly. With two people follow these steps:
1. Carefully lift the item slightly to provide access to the levelers attached to the bottom. (See Fig. 4).
2. Turn the levelers until adequate contact will be made with the floor. Gently set down the piece and check stability.
3. Repeat steps until furniture sits firmly on the ground.

Care Instructions:
• Dust often using a clean, soft, dry and lint-free cloth.
• Blot spills immediately and wipe with a clean, damp, cloth.
• We do not recommend the use of chemical cleansers, abrasives or furniture polish on our lacquered finish.
• Hardware may loosen over time. Periodically check to make sure all connections are tight. Re-tighten if necessary.

Thank you for your purchase.
