FEATURES

- Diaphragm cartridge maintains water temperature within ± 2°
- Compensates for water pressure fluctuations preventing scalding
- Flow rate: 6-7 gpm at 80 psi
- Solid brass construction
- Warranty:
  - Limited lifetime warranty (residential use)
  - One year (commercial use)
- Standard finishes:
  - Polished chrome
  - Satin nickel
  - Polished nickel
  - Antique bronze
- Listed by IAPMO, CSA, NSF, and other municipalities
- Shipping weight (lbs.): 13
- Shipping dimensions (in.): 23x13x9

IMPORTANT INSTALLATION INFORMATION

Professional Installation Required

- Use Teflon tape or pipe sealant for threaded connections
- Do not use plumber’s putty on any of the brass components
  This will cause the finish to tarnish and void the warranty. A non-corrosive Alkoxy Silicone is recommended.
- During sweating of lines do not overheat casting
  Overheating may cause damage to internal mechanism
- Copper adaptors may be required to complete your installation

1. **Ensure valve is properly installed according to Installation Sheet provided with valve.**
   
   Note: Specification from finished wall to tip of broached stem is 4”.

2. **Fit faceplate onto valve.**
   
   Note: for tub/shower valves with diverter, screw diverter knob and post (16) onto diverter stem.

3. **Insert handle trim onto stem broach so that escutcheon (20) rests against faceplate (12) and slight clearance is left for handle (20) to rotate freely.**
   
   Note: When fitting handle it may be necessary to shorten broach stem and/or threaded nipple to eliminate gap between handle and escutcheon.
