

P O T T E R Y B A R N

Eleanor Frameless Mirror

Parts Included:

- 1 Mirror with pre-fixed D-rings
- 2 S-hooks
- 1 Chain
- 1 Nylon ribbon

Note:

Mounting hardware is not included. For safe mounting, it is essential to use the proper hardware for your wall type. Be sure to contact your local hardware store to determine the hardware needed for your wall type (plaster, drywall, concrete, etc.) Mount to wood studs whenever possible. Two people recommended for safety and ease of mounting.

To install:

The mirror may be mounted using either of the options below:

- A) D-rings to mount the mirror directly to the wall
- B) Chain to hang mirror to wall
- C) Ribbon to hang mirror to wall

For additional information on how to hang a mirror or install a ledge and shelf, please refer to the videos in the link below:
<http://www.potterybarn.com/design-studio/video/>

A) D-ring Mount:

To determine the location of the mounting hardware, follow the steps below:

1. Hold mirror at desired location. With a pencil, mark on wall the top outside corners. These marks will be used to determine the location of your mounting hardware.
2. From the same corners used in step one, measure down to the center of both D-rings. Record these measurements on the wall, using the marks in step one as a guide.
3. Measure in from the side of mirror to the center of both D-rings. Again, record these measurements on the wall. Align the two measurements until they intersect. This is the insertion point of your mounting hardware. Use a carpenter's level to ensure that mirror will be level.
4. Using proper hardware for your wall type, insert screws into wall leaving approximately 1/2" between the back of the screw head and the wall.
5. Align the D-rings with screw heads and slide mirror over screw heads. Tighten or loosen screws as needed to fit mirror snugly against the wall.

B) Chain mount

Before making any marks on the wall, please follow the instructions below:

1. Turn the mirror face down. Make sure that the mirror is on a scratch-free surface or rug.
2. Attach one end of the S-hook to each of the D-rings.
3. Connect each end of the chain to the unattached end of the S-hooks, creating a loop from which the mirror will hang.
4. Turn the mirror over and hold at desired location on the wall while lifting chain to fully extended length. With a pencil, mark the spot on the wall where mounting hardware for the chain will be inserted.
5. Using the proper hardware for your wall type, mount the mirror to the wall.

C) Ribbon mount:

Before making any marks on the wall, please follow the instructions below:

6. Turn the mirror face down. Make sure that the mirror is on a scratch-free surface or rug.
7. Cut ribbon to desired length.
8. Thread one end of the ribbon through both of the D-rings. Tie the two ends of the ribbon together.
9. Turn the mirror over and hold at desired location on the wall while lifting chain to fully extended length. With a pencil, mark the spot on the wall where mounting hardware for the chain will be inserted.
10. Using the proper hardware for your wall type, mount the mirror to the wall.

Care Instructions:

Wipe with a soft, dry cloth only. Avoid cleaners and abrasives as they may damage the finish. To clean the mirror, spray a small amount of standard glass cleaner on a lint-free cloth and wipe.

Thank for your purchase
