

POTTERY BARN

seashell sconce votive holder

Note: For safe mounting, it is essential to use the proper hardware for your wall type. Be sure to consult your local hardware store to determine the hardware needed for your wall type (plaster, drywall, concrete, etc.). Mount to wood studs whenever possible.

Hardware Included:

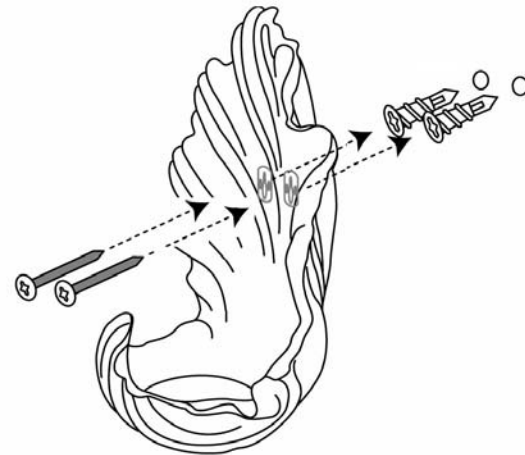

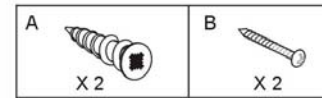

2 metal wall anchors
2 metal screws

Mounting Instructions:

1. Hold the votive holder up to wall to determine desired location. Use a stud finder to locate a stud in desired location. If aligning with stud, use provided metal mounting screws. If there is no stud, the wall anchors/metal screws are both required.
2. Mark the location of the screw holes with a pencil. Remove from wall. Use a carpenter's level or measure up from the floor at each mark to be sure that the holder will be level.
3. Use a Phillips screwdriver to insert the wall anchors. Do not "push" or drive the anchors into the wall, it is designed to bore into the wall like a drill bit. Slowly turn the anchors clockwise while applying pressure until the flange just touches the wall.
4. Insert the metal screw into the wall anchor turning clockwise leaving approximately 1/2" between the back of the screw head and the wall.
5. Align the keyholes over the screws. Slide the holder down until the top of the keyholes rest on the screws. Tighten or loosen screws as needed to fit the piece snugly against the wall.

Care Instructions:

Wipe with a soft, dry cloth. To protect the finish, do not use household cleaners or abrasives.

thank you for your purchase
