HANNA BASKET

Mounting Instructions

The hardware included is meant for dry wall and stud mounting only. If your walls are made from concrete, brick or plaster, please consult your local hardware store for assistance in selected the appropriate mounting hardware. Each mirror includes one metal bracket used for hanging.

Parts Included:

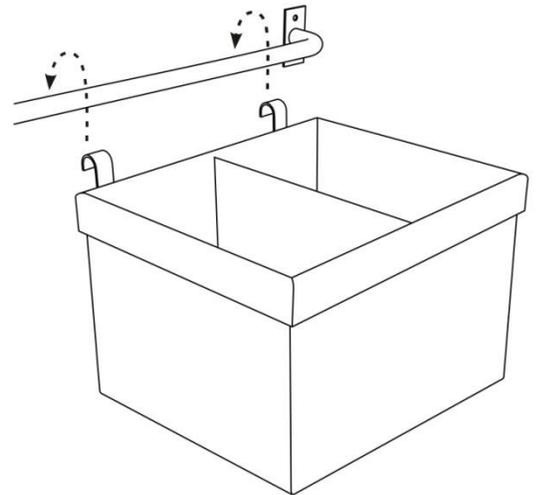

FOUR Screws
FOUR Anchors
ONE Mounting Template

Tools Required:

Phillips Screwdriver
Stud Finder, Pencil
Sticky Tape or Tacks

Mounting Instructions:

1. Position the mounting template against a wall at a desired mounting location. Use a level to make sure that the template is level and then use sticky tape or pushpins to hold the template in place on the wall.
2. Use a sharp pencil to mark the wall through the template at the center of each metal bracket hanger location. Remove the template from the wall. The marks remaining on the wall are the "insertion points" for the provided mounting hanger.
3. If either insertion mark aligns with a stud (use a stud-finder to locate the studs), skip below steps 4 and 5 and secure a screw directly into the metal hanger at the particular insertion point. Rotate the screw clockwise until the screw head resides about 3/8" from the wall.
4. For marks that do not align with a wall stud, install a provided anchor by engaging an anchor with a screwdriver and position the anchor tip at one of the insertion points. Rotate the anchor clockwise as you push it gently into the wall. Continue to rotate the anchor until the large end becomes even with the wall. Repeat this step with the other anchor and the other insertion point.
5. Insert a screw into each installed anchor w/ the metal hanger. Rotate the screw until the screw head resides about 3/8 inch from the wall. Repeat this step with the other screw and anchor.
6. Place metal flat bar hangers on open slot of wicker basket and hang basket to the installed wall metal hanger.

Care Instructions:

- As necessary, wipe with a soft, dry cloth or use a feather duster.
