Lion Bottle Opener Mounting Instructions

Note: For safe mounting, it is essential to use the proper hardware for your wall type. Be sure to consult your local hardware store to determine the hardware needed for your wall type (plaster, drywall, concrete, etc.). Mount to wood studs whenever possible.

Parts Included:

- 3 Screws
- 3 ITW mini anchors
- Lion Bottle Opener

Mounting Instructions:

1. Determine your desired hanging location. Place the Lion Opener on the wall and mark the 3 screw locations on the wall using a pencil.
2. Use a Phillips screwdriver to insert the wall anchors. Do not “push” or drive the anchors into the wall, they are designed to bore into the wall like a drill bit. Slowly turn the anchor clockwise while applying pressure until the flange just touches the wall.
3. Mount each screw through Lion Opener, then into anchor. Turn screws clockwise until tight.

Care Instructions:

Wipe with a soft, dry cloth. To protect the finish, do not use household cleaners or abrasives.
